THE Buffalo (N. Y.) Commercial has an interview with Ho a lo Seymour, jr, for years the State Engineer of New York. He shows that by deepening the Erie canal, raising the banks a foot and lengthening the locks, the enst of transportation can be reduced from one-third to one-half. He expressed himself as opposed to turning control of the canal over to the government, but did not object to the aid contemplated in the Weber bill.

THE Ecclesiastical Court of the Episcopal Church, which has been in session at Atlants, Ga., trying the Rev. Dr. James G. Armstrong, rector of St. Phillip's Parish, adjourned Wednesday night. The court has only to make up its decision, which will be done as soon as the evidence retary of War to-day transmitted to Congress a draft of a bill prepared by Mai Hear to product the South Pass of This case has caused more excitement, the Mississippi. A MEETING of the steel rail manufacturers of the United States was held in Philadelphia last Wednesday The general situation of the business was discussed, and reports were received showing that orders had already been booked for the current year for 723 tons of steel rails. Tie product for 1886 was lifflited at the Saratoga meeting to 775,000 tons, but subsequently the amount was raised to 1,000,000 tons. At the meeting in Philadelphia Wednesday it was agreed that when the orders received emounted to 800,000 tons the limit should be extended to 1,150,000 tons.

SPECIAL telegrams to Bradstreet's, at New York, indicate that the continued snow-storm has checked the movement of merchandise more seriously in the Southwest and Northwest than at the East. The country roads have again become impassable, and country merchants find business at a low point, The distributing centers, South and West, with the exception o! Cleveland, Chicago and Milwankee, report trade less active than one week ago. At the East dry goods are moving less freely from commission houses. There is a fair demand for woolen goods; print cloths are reported slightly weaker at nominally unchanged prices. The movement of boots and shoes has not been quite so brisk, owing to efforts to obtain an advance of 21 to 5 per cent. The general industrial situation may be characterized as in some respects better than for two years past, but manufacturers in some cases are reported as refraining from new ven-tures through fear of dictation on the part of labor organizations.

The Oklahoma Question. Washington, February 5.—The House Committee on Territories to day heard a delegation of Indiana representing the five civilized tribes of the Indian Territory in opposition to bills for the organiz t on of the Territories of Oklal oma. The Indians expressed general opposition to these and all bills affecting their present re-lations with the government. All they wanted was for the government to keep faith with them and the or-ganiza ion of the Territory of Oklahoma they claimed would be a violation of treaty stipn ation. Replying to ex-Representative Clark's charge that Oklatoma was row simply a pasture ground for cattlemen, trey made counter charges in which they ac-cuse Mr. Clark and others who urge the organization of the Territory of being in collasion with railway com-

The Voice of the Silver Democrats, Washington, February 5.—Representative Bland of Missouri, voicing the opinion of the silver Democrats of the House, desires to correct the impression which he rays has gained currency that the Republicans voted solicly on Wednesday last against Mr. Hewilt's motion to recommit with in-struct one the resolution reported from the Committe on Coinage, Weights and Measures calling for information at to silver circulation. He says that of the ninety votes cast for the motion thirty were Republicans and sixty Democrats, while of the 164 votes cast against it, eighty were cast by Democrats, showing a majority of twenty Democrats against it. He further says: "There are many Democrats who are silver men who voted for the said motion because they doubted the propriety of saxing the Secretary of the Treatury to define his

future policy as to silver payments.' The Killing of Capt, Crawford, WASHINGTON, February 5. - Senor Romero, the Mexican Mineiter at Washington, has received from the Governor of the State of Chihuahus, Mexico, an official report of the un-fortunate encounter which the Mexican forces had with the United States troops commanded by Capt. Crawford at the Mountains of Bavispe, Chibus-hus, on the 11th ultimo. It is stated in the repo t that the Mexican forces, commanded by Maj. Manrico Coredor arrived that day at a place called Tiopara, in the Sierra of Bavispe, where they knew that the Apache In-dians had revolted, under the leader-ship of Geroximo. The Mexicans

fired on the United States troops in the helief that they were headles. In the fight which ensued Maj. Manrico Corredor, First Lient. Juan De La Cruz and Privates Marina Madrid and Luz Estrado were killed and four ther roldiers wounded. As soon as the Mexican forces found out that they were fi ing on United States sol-diers they recent firing and expressed to the latter their regret at the loss occasioned to both com-manders by the mistake. The report gives as an excuse for the mistake the difficulty of distinguishing the renegade Indians from the scouts, and says that while the latter generally behave themselves while in their camp and under the view of their officers when they get out under the pretext of hunting or looking for hestile Indians or others they sometimes commis crest depredations on the peaceful inhabitents on the frontier and rane of readily he distinguished from the hostile India ss. It was reported from Mexico that the scouts killed and wounded on the 17th of December a considerable number of cattle and horses belonging to a Mexican, and that on the 23d, while they were in camp at a place distant about a mile from Gurcabas, Sonora, seven of the scout, entered the village and com-mitted great outerges, and the mayor was forced to ask for a remed forces to bring them to order a done of the recuts was wounced. The same Indians killed af erward eleven head of catte and wounded others near Gusmadas, and killed two men who were leading mules loaded with government supplies which were stolen by the aconts. It is also retacked by scoats on the 8 h of January, on the road that leads from Nonsari to Campus. The Mexicans succeeded in escaping but their donkeys, their cargo and pa k-sadol were captured. The report says further: "The Constitution, the official journal of the State of Schoola, contains a deailed statement of the ourrages committed by the scoats, and the result has been to address a petition to the general government not to allow the scouts to cross over into M. x.ca v territory."

Senator Seweli's Militia Bill. Washington, February 5.—Senator Sewell's milt a bil, which passed the Senate to-day, provides for an annual ap reprist on of \$60,000 for the purpose of providing sims and ordrance stores, quarermaster's stores and came equipage for the militis, the appropria to a to be apportioned among he several States and Territories. No S a e, however, shall receive its share of the appropriation unless is militia force numbers at least 100 men for each Senator and Representative to which it is entitled in Congress.

A Sad Case of Poisoning

Is that of any man or woman afflicted with disease or derangement of the liver, resulting in poisonous accumu-lation in the blood, acrolulous affecons, sick-headaches, and diseases of the kidneys, lungs or heart These troubles can be cured only by going to the primary cause, and putting the liver in a healthy condition. To secomplish this result speedily and effectually nothing has proven itself so efficacous as Dr. Pierce's "Golden Medical Discovery," which has never falled to do the work claimed for it,

The Chicago University Property. CHICAGO, February 5 .- A lengthy auswer was filed gesterday by the University of Chicago in the suit of Mrs. Adele Douglas Williams against the university to get possession of the property on the ground that it had reverted to the Douglas hairs. In the answer the university denies that it has alienated the property or broken the contract on which Donsiss gave it, and also makes the new point that the insurance company can never acquire a title which will enable it to use the property for aught else than the puroose for which it was dedicated as a university. It is further claimed that when the property was platted and sold the abutting property owners bought on the condition that the university would always be there, and with the advantages of the University park, and that any purchaser of mortgaged property must take it with notice of the rights of such abutting property owners.

The Bodies of the Men Killed at Oakland Junction Identified,

ISPECIAL TO THE APPEAL. CHATTANOOGA, TRAN., February 5. The remains of the two men shot down near Oakland Junction, Tenn., down near Oakhard Junction, Tenn, lest Tuesday night, under the suspicion of being burglars, were identified to-day as the bodies of George and Frank Taylor of Dayton, O. They were identified by a brother and a brother-in-law, and the bodies were conveyed back to their former home. The most intense excitement prevails over the killing, and the three memover the killing, and the three mem-bers of the posse and the thots have been placed under bond on the charge of murder. It is not clear that the dead men were the parties sought, they were innocent boys. The third individual, who was with them when they were killed, has not been heard of since, and no trace of him found. The Taylor brothers left Dayton, O., to come to Chat anooga.

The Killing of Capt, Crawford, New York, Pebruary 5.—A Tomb-stone (Ariz) special to the Post says: The reported causes leading to the shooting of Capt. Crawford are confirmed by the arrival here to-day from Sorora of A. J. Hancke, a citizen of undoubted credibility. He reports that last month fourteen of Crawford's scouts, while intoxicated, attacked a Mexican cit zen living near Fonteras. They subsequently rode into Fonteras, iring up and down the streets, driving the terror-stricken persons into their ouser, which they barred, preparing to defend themselves. The drunken scouts had the town to themselves for a time. The Mexicans banded, and were ready to attack the men when Crawford rode into town, and by his presence succeeded in drawing off the

CURED OF CATARRH

BY DR. J. A. HUNTER'S TREATMENT.

Letter from Mr. Hargreaves, of the firm of Morgan & Hargreaves, Dry Goods Merchants, Washington, Pa.

WASHINGTON, PA., July 14th, 1877.

DR. J. A. HUNTER, San Francisco-DEAR SIR: I will have to introduce myself before going any further. I was under your care in the fall of 1875 and early part of 1876 for Catarrh, "Pharyngilis," you told me, and catarrh in the ear, one of my ears-the left onebeing very badly affected. Now, it is about aural trouble I wish to ask you. The ear which you doctored has ceased to trouble me, but the other-the right one-though it does not seem to be diseased, collects wax which gets hard, or caked, incrusted on the tube leading to the ear. A drop of olive oil relieves it for the time, until it appears to dry up, and

then not really pains but annoys me. The sensation I now feel is not so much in the ear, but at the end of the Eustachian tube, just where it enters the throat : for when I sing it causes a sensation- a kind of harshness in the throat-merely at that point where the tube enters the throat, as I understand from the cuts in the papers you

gave me. The reason I wrote to you, in preference to consulting home physicians, is that you cured me of Catarrh when others did me no good, and transformed. me from an invalid to a man of not merely good but ROBUST health. If you will write and tell me what to do, I will send whatever charges you see

When I was under your care before, you prescribed for my ears, INHA-LATION. Hoping to hear from you soon, I remain, yours sincerely,
A. W. HARGREAVES.

REPORT AFTER NINE YEARS.

ABILENE, KANSAS, January 22, 1886.

DR. JAMES A. HUNTER, So Court St., Memphis, Tenn.: DEAR SIR-I am in receipt of your letter of enquiry, (forwarded to me from Washington, Pa.,) about my condition of health. I left Washington and quit former business (dry goods), more than two years since. The close confinement had worn me out. I now have perfect health. The treatment you gave me for chronic catarrh was effective, and the results permanent. When you treated we in '77 I considered that you saved my life, and now, at this time, I am still of the same opinion. I am glad to hear of your return to America, for if I ever have a return of catarrh I shall want your skill, as I know of no other physician so able to cope with

this horrible disease. If you wish to use me as a reference do so at any time. I feel so grate-Wishing you health and success, I am your former patient and hearty well wisher.

Very truly. ful to you for what you have done for me that I will gladly serve you. Very truly, A. W. HARGREAVES.
